

# Services

We specialize in the treatment of mood disorders in adults and elderly patients suffering from depression, anxiety disorders, obsessive compulsive disorders and disorders secondary to medical conditions. Dr. Buongiorno is an expert in the pharmacological management of these disorders and after a careful and thorough consultation will develop a treatment plan specific to an individual's needs including medication management, psychotherapy, and other treatment modalities. We will perform second opinion consultations on request and collaborate with your treating therapist if necessary.

- Consultations
- Medication Management
- Brief Supportive Psychotherapy
- Individual Psychotherapy
- Couples Counseling
- Transcranial Magnetic Stimulation.
